

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

NOTE.

The Memorandum Society has embraced nearly all who have graduated from this Institution, and a large proportion of those who have for any length of time been connected with it. Young ladies desiring to become members of the Society after leaving the Seminary, can do so by writing to the Secretary and enclosing the fee of membership.

In case of the decease of any member of the Society, friends are requested to communicate the fact to the Secretary, together with the circumstances of her death, and any items of interest relative to her. In the records of the Society a place is reserved for each member, to be filled with her history. As a tribute of affection, it would be a mournful pleasure to record the last events of her life.

In collecting and arranging facts, there may have been mistakes, though great effort has been made to avoid it. When mistakes are discovered, the members are requested to communicate the same to the Secretary that corrections may be made in the next Catalogue.

The Members are *particularly requested* to notify the Secretary whenever any change should be made in their address,—otherwise Catalogues for the coming five years will be directed according to the Post Office address for 1867. The Annual Catalogues of the Seminary are sent yearly to every member of the Society, but owing to changes of residence which have not been reported, or to some other unknown reason, many fail to receive them.

PUBLICATION OF THE NEXT CATALOGUE.

The Constitution requires that the next Catalogue of the Society be published in the year 1872, and that each member write to the Secretary in January of the same year. These letters should be written promptly, as delays greatly increase the business of the Society. Married members are requested to state their maiden names.

It will be the duty of the Secretary to send letters between the 1st and 15th of February, to all those from whom letters are not received during the month of January.

The Catalogue is to be finished and a copy forwarded to each member in June.

If any member does not receive her Catalogue before the middle of July, she is requested to write to the Secretary, that the mistake may be rectified.

The Secretary of the Society is requested to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society.

The Secretary of the Society is requested to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society.

The Secretary of the Society is requested to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society.

The Secretary of the Society is requested to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society.

PUBLICATION OF THE MEMBERS' NAMES

The Constitution requires that the names of the members of the Society be published in the year 1911, and that each member write to the Secretary a statement of his name and address. These letters should be written promptly, as delays greatly increase the amount of the printing. The following members are requested to send their maiden names.

It will be the duty of the Secretary to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society, and to send a copy of the Constitution to each member of the Society.

The Catalogue is to be finished and a copy to be sent to each member in June.

If any member does not receive her Catalogue by the first of July she is requested to write to the Secretary, that the mistake may be rectified.
